Product highlights

Play DVD/DivX® & MPEG4
With DivX® support, you are able to enjoy DivX® encoded videos in the comfort of your living room. The DivX® media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, memory cards and DVD-video. DivX® CDs can be played back on selected DVD players, DVD Recorders and Home Theatre Systems.

MP3-CD, CD and CD-RW music
MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A singe CD can store up to 10 hours of music.

Share picture CD (JPEG)
Multi-format playability allows you to view images on the go and play most disc formats for maximum disc compatibility and viewing pleasure.
